Release notes

Resolved issues

- An entry has been added to the FAQ page (ticket [#6008](#))
Some improvements have been made on how jobs are managed (ticket [#6063](#)) :
 1. Now connections between the gwd and the scheduler are recycled to get jobs' information
 2. A FIFO queue has been added to manage a large number of jobs in the scheduler
- The resource configuration value "**ssh**" has been restored and "**pk_ssh**" will also be kept ([ticket:6082#comment:6](#))

Other resolved issues

[#5992](#)

The command "drm4g stop" doesn't work sometimes

[#6008](#)

Add a problem solving section to the wiki

[#6047](#)

Add test scripts to DRM4G's package
