

## Stable DRM4G Release 2.6.3

This release primarily makes some improvements in the code.

- [?Download](#)

### Release notes

#### Resolved issues

- Part of the code has been reallocated and made easier to follow ( ticket [#6086](#) )
- The ad-hoc modifications made to the code in order to add OpenSSH as a communicator have been removed while still maintaining this new communicator ( tickets [#6048](#) and [#6064](#) )

#### Other resolved issues

[#6040](#)

Open tickets in FedCloud

[#6097](#)

CREAM resources sometimes won't work

#### Known bugs

- The DRM4G doesn't work properly if all of the loggers and handlers are set to level "**DEBUG**" ( ticket [#6084](#) )
