## ESGF Data Visibility API

Accessible API for querying counts of datasets published on ESGF<sup>1</sup>. This service currently serves information for CORDEX, CMIP5, obs4MIPs and ana4MIPs projects. The url is [?https://esg-dn1.nsc.liu.se:8843/api/datavisibility](https://esg-dn1.nsc.liu.se:8843/api/datavisibility)

It lists number of datasets published on datanodes, by project and also the number of datasets 'seen' by each federation index node. This information is
